←————→
Course Description:

This Summer camp, we will be using Version 9.1 and Mastercam's latest release, Release X.

We will be offering two options to match your Mastercam training needs:

1.) **Basic Hands-on Training Class** (2-days) held Tuesday & Wednesday (7/19 & 7/20) **Cost: \$450 per registrant**

Topics covered: Basic CAD, 2D Geometry Creation, 2D Toolpaths, Lathe Setup & Configuration

2.) **Advanced 4-day Hands-on Training Class** (4-days) held Thursday & Friday (7/19—7/22)

Cost: \$800 per registrant.

Topics covered: 3D Geometry Creation, Advanced Pocketing, Workplanes, Fixture Offsets, Solids, 3D Toolpaths focusing on Mill and Router.

Prerequisite Mastercam Skills: Should be competent with basic CAD and geometry creation along with NC post processing skills using Mastercam Version 8 or later.

Classes begin each day at 9 am and will conclude at 4 pm. Lunches and tutorials are included in registration fee.

Professional Development Points (PDPs) certificates will be issued at the conclusion of class

NOTE: For lodging, directions, points of interests, summer camp daily itinerary, and other information, please contact Mark O'Bryan at 781-369-1428 or via email at mobryan@tesolutions.org

To register: Mail your check, credit card information, or school purchase order along with the attached form to:
